"What an amazing experience!"

This curated group of speakers led enlightening conversations on: Optimizing your mindset with tools to prep, reset, and shift; Powering up your productivity by using meditation and reducing distractions; Maximizing and managing your energy by being yourself, taking time off, and knowing what you can commit to; and more!

Natasha Habert
Valor Performance

"A breath of fresh air."

What an incredible time at the The Conscious Entrepreneur Summit! It's a real breath of fresh air to attend a biz conference that doesn't talk about KPIs, marketing, pitching, crushing it, and all the linear strategy stuff.

Instead, we talked mindset, conscious leadership commitments, mental health, and how to do business differently.

Amy Baglan
Alchemia

"A fantastic experience."

Did some deep personal work alongside 100+ other founders and CEOs on mindset, empathy, heart-centered leadership, presencing practices, joy, healthier definitions of success and tactics to put it all into practice.
